

JAPANESE ORIENTAL TATTOO

Japanese Oriental tattoos, also known as **Irezumi**, are a traditional tattoo style from Japan known for their bold outlines, rich colors, and detailed designs. They often feature **mythical creatures, samurai, geishas, flowers**, and **natural elements** like waves or wind.

Each symbol carries deep meaning for example, dragons represent wisdom and strength, koi fish symbolize perseverance, and cherry blossoms reflect the beauty and shortness of life. These tattoos are usually large, flowing designs that cover big areas of the body, like the back, arms, or legs.

The style is both artistic and symbolic, combining beauty with personal or cultural meaning.
